

Biochemistry Vocabulary KEY

1. unsaturated fat
2. protein
3. enzyme
4. unsaturated fatty acid
5. steroid
6. product
7. glycogen
8. amino acid
9. ribose
10. polymer
11. polypeptide chain
12. cellulose
13. active site
14. glycerol
15. denature
16. glucose
17. substrate
18. saturated fatty acid
19. activation energy
20. monomer
21. DNA
22. nucleotide
23. saturated fat
24. deoxyribose
25. starch
26. phospholipid
27. RNA
28. RNA nucleotide
29. cholesterol
30. DNA nucleotide
